

## My Design Journal

### The Water slid By STELLA

This is my hotel structure.  
This is my structure water slide. I  
am making a water slide with a  
huge looping.

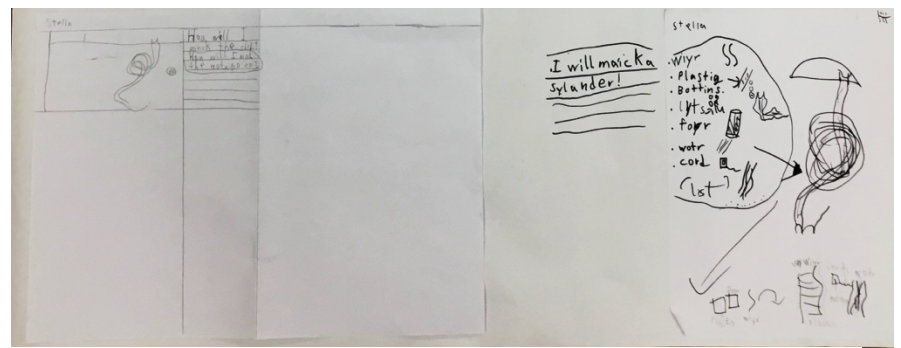

I am making the yellow slide it is  
going to be huge.

Step 3- Identifying and sharing my 2 challenges.

I am telling about my structure, I  
am telling what my hard part is. I  
think the two looping's are hard  
because you always need to make  
two looping's.

step 6- creating

I am starting to make the slide  
with plastic and wire.

step 8- continue creating

I am Designing a slide I think I  
could do at shaping the water slide  
with two loop's. I think I could  
make the water slide.

stap 7-Rections

I think I could do better at making  
my structure. I hope I get better  
at School.
